

# FYP Proposal Submission Form

Revision 1

<b>Detail of Project Members:</b>	Lareib Fatima Talib Hamza Zia
<b>Supervised By:</b>	Dr. Mudassar Raza
<b>Title:</b>	App: An android app for children's learning and their entertainment as well, because there is no app having both components together.
<b>Which real world Problem shall be solved by this project?</b>	Children often like to play games on mobiles as well as on laptops and due to not finding a suitable app they start online gaming and due to this they avoid many learning apps. The project will solve the problem by designing an app having both facilities.
<b>Project Description (What, How and Objectives):</b>	This android app will be having two components: One will be the learning phase where small children between age of 3 to 8 years will be able to learn like their basic childhood knowledge. Here, they will perform learning and testing purposes as well. The other component will be the entertainment phase where children will able to play games, solve puzzles, play and record music, can solve character and object development. They will also be able to see favorite cartoon characters.
<b>Project Streams:</b>	Mobile Apps FYP , Game-based FYP
